

UC'S COLLEGE OF NURSING

For 130 years, we have been preparing nurses to provide patients with the best care possible while also serving our communities as responsible, compassionate caregivers and leaders. Over 62% of all UC nursing students are enrolled in our highly regarded online programs, which are offered on flexible schedules for both part-time and full-time students.

CAREER OUTLOOK ///

26%

Nurse Practitioner job growth is projected to increase¹ by 26% through 2028 due to an interest in preventative care combined with an aging population in need of healthcare services.

According to the Bureau of Labor Statistics², the median salary for nurse practitioners in 2019 was

\$109,820

and increased for those who worked in a hospital, outpatient care center, or a physician or other health practitioner's office.

NURSE PRACTITIONER CAREER OPPORTUNITIES ///

Family Nurse Practitioner

The MSN program prepares nurses to diagnose and manage medical conditions across all ages. FNPs blend clinical expertise in diagnosing and treating health conditions with an added emphasis on comprehensive disease prevention and health management.

Adult-Gerontology Primary Care Nurse Practitioner

AGPC NPs practice on patients 13 and older in community-based settings. A UC Online graduate will build a career working in primary and specialty care helping to diagnosis and manage the common and complex medical conditions of their patients.

Women's Health Nurse Practitioner

Perfect for RNs who want to advance their degree in women's health – you'll become a primary care provider for female patients, concentrating on promoting wellness and disease prevention throughout their lifespan.

WORKPLACE SETTINGS ///

Nurse Practitioners do not just work in hospitals. They could work within a number of different workplace environments.

Private Practices

Schools & Colleges

Health Departments

Rural & Specialty Clinics

Outpatient Care Facilities

Prisons & Jails

Long-term Care Facilities

Rehabilitation Centers
