

# Bachelor of Respiratory Therapy

## Accelerated Program Overview

The Accelerated Respiratory Therapy program is open to students currently enrolled in the Bachelor of Science in Respiratory Therapy (BSRT) degree program. Eligible students may complete up to 9 graduate credit hours towards the Master of Science in Respiratory Therapy (MSRT) degree while fulfilling requirements for the BSRT degree.

### About the Program

- To be considered for the accelerated program, students must have a cumulative University GPA of at least a 3.0.
- If students meet the required qualifications, students will begin taking Graduate (MSRT) courses the 5th semester of the BSRT undergraduate degree plan.
- Undergrad tuition applies to all core MSRT classes taken before BSRT graduation. Potential to save **up to \$2,000**.

### Sample Academic Schedule

#### Undergrad 3rd Semester

- Complete internal application to the accelerated option

#### Undergrad 4th Semester

- Full Session RSTH 4001 (9 credits)
- 2 Half-Session RSTH 4050 (4 credits)

#### Undergrad 5th Semester

- Full Session RSTH 5001 (Capstone)
- 1st and/or 2nd Half-Session MSRT Core
- Apply to MSRT Program

#### Grad 1st Semester

- MSRT Core (3 cr)
- MSRT Core (3 cr)

#### Grad 2nd Semester

- MSRT Core (3 cr)
- MSRT Core (3 cr)

#### Grad 3rd Semester

- MSRT Concentration Course (3 cr)
- MSRT Concentration Course (3 cr)

#### Grad 4th Semester

- MSRT Concentration Course (3 cr)
- MSRT Capstone

### Next Steps...

If you are currently enrolled in the BSRT program and are interested in the accelerated path, please reach out to your student success coordinator for more information.
